

Easy and reliable

dishlex

dishlex Cleaning up after Australian families since 1980.

The Dishlex name is synonymous with excellent performance, reliability and exceptional value. The new range of Dishlex dishwashers continues to provide practical dishcare solutions wrapped in a stylish contemporary design, and is sure to become one of your best kitchen allies.

Dishlex dishwashers are simple, easy to use and great value for money.

Designed to make life easier.

Introducing the brand new range of dishwashers from Dishlex. Stylishly designed for an easy and efficient clean, you'll enjoy sparkling results with every wash. And with better energy efficiency and lower water consumption, Dishlex dishwashers are better for the planet and your wallet too.

Simple to use controls

The well-designed rotary dial on the DSF6106 saves time and reduces confusion. Simply rotate it to select your desired program. The DSF6206 and DSF6306 feature a push button control with a button for each program.

A faster wash

Quick 30 program at 60 degrees is the perfect choice when you're in a hurry or only have a partial load to wash.

Increased stability with soft spikes

Now you can prevent glasses from falling over, breaking or cracking in the dishwasher. Our clever soft spikes help keep your glasses stable and reduce the likelihood of breakages.

Saves water

With today's climate challenges, we need to do what we can to save water. That's why we offer 4.5-star WELS water rated dishwashers, so you can make a better choice for your future.

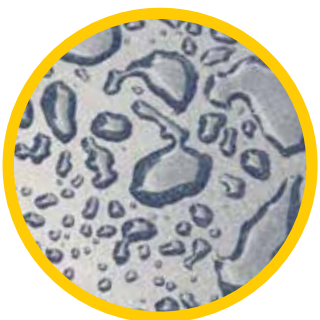

Easy-lift upper basket

The top basket height can be easily adjusted to accommodate large plates and platters in the lower basket, even when fully loaded. (DSF6206 and DSF6306 only)

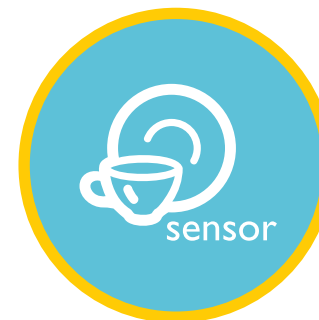

Auto program

The auto program senses dirt with the soil sensor delivering top wash results while optimising use of water and energy. (DSF6306 only)

Anti-flood protection

The anti-flood protection feature automatically senses any blockages in the draining system and shuts down the dishwasher to prevent flooding. (DSF6306 only)

Load sensing

Load sensing optimises your energy usage. Each load is assessed and adjusted on a wash by wash basis.

Auto off

With the Auto Off feature the dishwasher will automatically shut off to keep energy consumption to a minimum. (DSF6206 and DSF6306 only)
